PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in Python, SQL, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), ETL pipelines, and building interactive dashboards. Proven ability to extract actionable insights from large datasets and communicate findings to stakeholders. 1+ year of experience delivering data-focused training to 20+ professionals.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, HTML

Data Visualization: Power BI, Matplotlib, Seaborn

Databases: MySQL, SQLite, Query Optimization, Joins, Subqueries, Window Functions

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), ETL, Statistical Analysis, Time-Series Analysis, KPI Reporting

Tools & Platforms: Jupyter Notebook, Google Colab, Microsoft Excel, Git, GitHub

WORK EXPERIENCE

IT Trainer — Samyak IT Solutions

March 2025 – Present • Pune, Maharashtra

- Delivered structured training on Python, SQL, and Data Structures to 20+ students, improving learner outcomes
- Mentored students on real-world data analysis projects using Pandas, NumPy, and SQL; guided EDA and data cleaning workflows
- Designed and conducted hands-on lab sessions focused on data manipulation, analysis, and visualization techniques
- Developed training materials and assessments aligned with industry data analyst requirements

PROJECTS

Sales Data Analysis and Forecasting | Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI

- Analysed retail sales dataset using Python (Pandas, NumPy) to identify trends, seasonal patterns, and sales performance drivers
- Built interactive Power BI dashboards for KPI tracking, revenue monitoring, and identification of top-performing products and regions
- Created data visualizations using Matplotlib and Seaborn to communicate business insights to non-technical stakeholders

Customer Behaviour Analysis | Python, MySQL, SQL, Pandas

- Designed and implemented a MySQL relational database to manage customer information, transaction records, and behavioural data
- Developed complex SQL queries using JOINS, subqueries, CTEs, and window functions to generate actionable customer insights

- Optimized SQL queries achieving 30% faster execution time; automated recurring reporting workflows to reduce manual effort

Financial Data Visualization Dashboard / *Python, Pandas, Seaborn, Matplotlib*

- Built an interactive dashboard to visualize stock market trends, price movements, volume trends, and key financial metrics
- Performed time-series analysis on historical financial data using Pandas to identify patterns and forecast potential trends
- Designed clear and insightful visualizations with Seaborn enabling data-driven financial decision-making

E D U C A T I O N

Bachelor of Technology — Computer Science & Engineering

CSMSS Chh. Shahu College of Engineering, Chh.Sambhajinagar

CGPA: 8.56 / 10 • 2023

Diploma — Information Technology

Government Polytechnic, Hingoli

Percentage: 87.50% • 2020

C E R T I F I C A T I O N S

- Machine Learning — NPTEL
- Git & GitHub Essentials — Code Academy
- Junior Full-Stack Java Developer Program — Generation India Foundation (2024)

A D D I T I O N A L I N F O R M A T I O N

Languages: English, Hindi, Marathi

Key Strengths: Analytical Thinking, Problem-Solving, Attention to Detail, Data-Driven Decision Making
